

HARVEST HOUSE

April 2022

WHO WE SERVED

Harvest House serviced 11 emergency placed children. We were able to provide meals, clothing, gifts, and help in locating placement for them. In addition, we also served 44 foster families and 136 foster children through our monthly support efforts of babysitting, training, and donation distribution.

FOSTER MOM STORY

Moving to Guam at 22 years old was an adventure of its own. I was a newly married college graduate with a heart much bigger than my brain and when I found Harvest House and saw the need of this gorgeous island my heart couldn't help but to jump right in. My husband and I attended an informational meeting on a Thursday and picked up our first baby on the following Monday. Ever since that moment I have had many hard and heartwarming experiences as a first time mom. I often joke that if you would have asked me a year ago if I saw myself at 23 crying tears of joy over poop and insurance claims, I would have laughed hysterically, but now I spend my days kissing owies, wiping noses, mending broken hearts, and wading in diapers for my 3 under 3 but I wouldn't change a minute of it and all of that is thanks to the love of a generous God for allowing me to be their mommy for however long they need.

EVENTS

Harvest House hosted our 10th annual Spring Photo Event. This year we had 16 volunteers and 10 volunteer photographers who provided 33 families and 75 foster children with a free family photoshoot. Harvest House is working hard to create photo books and portraits from the event and gift them to each family!
